On April 18, Wang Xiaohui, Secretary of the CPC Sichuan Provincial Committee, attended and addressed the Sichuan Provincial Mobilization Meeting for the Chengdu 2021 FISU World University Games (WUG) in Chengdu. He stressed that the opening of the Games is only 100 days away, which marks the start of a critical stage of all preparations for a decisive victory. The whole province, especially Chengdu, should thoroughly implement the spirit of General Secretary Xi Jinping's important instructions and the decisions and plans of the CPC Central Committee and the State Council, quickly get well prepared, strive to be a good host, work hard for the next 100 days, extend a warm welcome to the Games, make every effort in preparations, and work together to present a sports event with Chinese characteristics, evolution with the times and the charm of Bashu to the world.

Huang Qiang, Deputy Secretary of the CPC Sichuan Provincial Committee, Governor of the People's Government of Sichuan Province and Executive President of the Organizing Committee of the Chengdu 2021 FISU WUG, presided over the meeting.

In his speech, Wang Xiaohui affirmed the major achievements made in the preparations for the Games. On behalf of the CPC Sichuan Provincial Committee and the People's Government of Sichuan Province, he expressed his gratitude and greetings to Chengdu and all the staff involved in the preparatory work for their hard work, to all the builders, service providers

and volunteers for their selfless dedication, as well as to all the localities and departments across the province, sponsors, operators and people from all sectors of society for their strong support. He pointed out that the hosting of the Games in Chengdu is a major strategic plan made by the CPC Central Committee with Comrade Xi Jinping at its core in view of the overall situation of reform, opening up and modernization in China, and carries the trust and high expectations of the CPC Central Committee, the State Council and the people of the whole country in Sichuan. The Chengdu 2021 FISU WUG is of great significance. It is a landmark event at an important historical node, a major driving project to intensify the efforts to build a leading country in sports and the cause of youth in the new era, and a historic opportunity to boost the high-quality development of Sichuan and improve the quality of Chengdu. The whole province should further improve our political stance, and continue to take hosting the Chengdu 2021 FISU WUG as a practical action to firmly support the "two affirmations" and ensure the "two upholds," as a direct test of the achievements made in the theoretical study program on study and implementation of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, and as an important opportunity to advance the modernization of Sichuan on the new journey in the new era. We should conscientiously implement the concept of being "simple, safe and wonderful" and make preparations with high quality and

high standards to ensure the smooth and successful hosting of the Games.

Wang Xiaohui pointed out that we should adopt a problem-oriented approach, direct more attention to identifying gaps and improving weaknesses, and do our utmost to accomplish key tasks. We should enhance the awareness of high quality, succeed in the key work such as the opening and closing ceremonies and the torch relay, coordinate the joint commissioning and stress test of competition venues, the FISU WUG Village, surrounding road traffic and important communication equipment, ensure that all kinds of software and hardware facilities are in the best operating state, and create good conditions for athletes to perform at a high level, spectators to watch competitions with high quality and media to rebroadcast with high quality. We should strengthen the awareness of services and improve the level of guarantee, make every effort to offer services such as foreign reception, event organization, customs clearance, logistics, catering and accommodation, step up the training of volunteers, and improve the quality of volunteer services, so as to provide high-quality and diversified services for contestants and tourists at home and abroad, and fully demonstrate the good image of a hospitable Sichuan. We should strengthen market awareness to amplify the value of events, make full use of market channels and marketing means to carry out investment attraction, talent introduction and city promotion, vigorously expand the

post-Games economy, and maximize the brand effect of the Games; host the Games in a thrifty manner, strengthen budget management and expenditure control, and give full play to the efficiency of funds. We should strengthen the awareness of publicity and create a strong atmosphere. Before the Games, we should launch a number of public service advertisements, image publicity and interpretation reports. During the Games, we should panoramically display wonderful events and brilliant performance of athletes. After the Games, we should plan and hold a series of follow-up activities such as cultural exchanges, local customs, fashion consumption and sports leisure. This way, we will help the rest of the world get a deeper understanding of Sichuan and Chengdu and participate more in the Games. We should strengthen risk awareness, strictly enforce the bottom line of safety, improve emergency plans in key areas, further deepen and refine security measures, assist in anti-doping work, and make every effort to build a safety pattern that "the whole province ensures the safety of Chengdu and Chengdu does that of the Games".

Wang Xiaohui stressed that we should strengthen coordination and promote concerted efforts to host the Games. Hosting the Chengdu 2021 FISU WUG in Sichuan involves not only Chengdu, but also all localities, departments, fronts and resources across the province. We should strengthen coordinated command, work and forces, and mobilize the whole province to

resolutely win the final battle of the preparatory stage, in a bid to ensure the successful hosting of the Games with sound supporting facilities, excellent service guarantee and high morale.

While presiding over the meeting, Huang Qiang pointed out that as Secretary Wang Xiaohui's speech has fully implemented the relevant decisions and plans of the CPC Central Committee and the State Council, and made important arrangements for the preparations in the last 100 days before the Chengdu 2021 FISU WUG, it is not only a mobilization order for marching forward, but also a task pledge for a decisive victory with clear orientation and practical guidance. Singapore is an important partner for Sichuan to deepen its southbound opening-up, advance the high-quality construction of the Belt and Road Initiative and the New International Land-Sea Trade

Corridor (ILSTC), and seize new development opportunities of the RCEP. We are now vigorously implementing the development strategy of "synchronized development of new urbanization, industrialization, informatization, and agricultural modernization, urban-rural integration and common prosperity of five zones", deepening the new industrialization, accelerating the construction of a modern industrial system that serves the overall development of the country and reveals the characteristics of Sichuan, and ensuring a good start for Sichuan's modernization in the new era and on the new journey. In the next step, we will work with Singapore to implement the important consensus reached by the two heads of state, seize the major opportunities in the construction of the Chengdu-Chongqing economic circle, make use of the economic and trade promotion mechanism of the SSTIC, and deepen cooperation in industry, technological innovation, people-to-people exchanges and other fields. We will also enhance exchanges between Singapore and Sichuan in an all-round way, achieve mutually beneficial and win-win development, and make greater contributions to the deepening and expansion of China-Singapore relations.

On behalf of the provincial government, Huang Qiang expressed his gratitude to people from all walks of life who have long cared about and supported Sichuan's development and its cooperation with Singapore. He said that Sichuan and Singapore have always maintained close exchanges, especially since the establishment of the SSTIC 27 years ago, and have basically established an all-round, in-depth and all-dimensional pattern of mutually beneficial cooperation. With the accelerated construction of ILSTC, the in-depth implementation of the RCEP, the opening of the China-Laos Railway, and the expansion of Sichuan's southbound opening-up, it is just the right time for the two sides to deepen their cooperation. We are ready to work with Singapore to seize a new round of development opportunities, tap into the economic and trade potential, and consolidate the foundation for cooperation. We look forward to Singaporean enterprises to leverage their experience and advantages in finance, modern logistics and other fields to establish business in Sichuan, and encourage more Sichuan enterprises to take advantage of Singapore's global network to spread more competitive and characteristic products to the world. We

focus on the real economy to create cooperation highlights, launch landmark cooperation projects in key areas such as Sichuan's six advantageous industries, and combine efforts to enhance our presence in industrial chain, innovation chain, and value chain. We improve mechanisms and platforms to enhance the effectiveness of cooperation, strengthen the top-level design of high-level cooperation, prioritize the planning of future-oriented projects of strategic significance, and support the development of leading enterprises and chain leaders, so as to ensure higher-quality and higher-level cooperation between Singapore and Sichuan.

The ceremony bid farewell to all graduating students with deep emotions and provided them with a vivid ideological and political education lesson. The ceremony was attended by Hao Xiang, the head of the 10th touring guidance group for thematic education of directly affiliated universities under the Ministry of Education, member Zhu Jiasi, Party

Secretary Zhao Dewu, Vice Party Secretary and President Zhuo Zhi, Vice Party Secretary Ma Xiao, Vice Party Secretary and Vice President Li Yongqiang, Vice Party Secretary and Secretary of the Discipline Inspection Commission Sun Dianming, Party Standing Committee members, and Vice Presidents Yin Qingshuang, Shi Daimin, Zhang Bangfu, and Gui Fuqiang, as well as the leaders of various schools (institutes), functional departments, representatives of teachers and parents, and the graduating class of 2023. Zhao Dewu presided over the ceremony, and Zhuo Zhi delivered a speech.

The ceremony began with the majestic and solemn "Guanghua University Anthem." The melody of "You and I Have an Appointment in 2035" resonated, inspiring the dreams of the youth. Flag bearers from each department entered the venue, waving their flags to boost the aspirations of the young generation.

Amidst the stirring national anthem, the Five-starred Red flag and the SWUFE flag rose slowly, marking the official beginning of the graduation ceremony.

At the beginning of the ceremony, all attendees watched the thematic video "The Journey of Striving" together, reminiscing about SWUFE's glorious history of education, national service, reform, and progress under the strong leadership of the Party, as well as the great changes and achievements in the new era over the past decade. The video reviewed the significant achievements made in implementing and comprehensively studying Xi Jinping

Thought on Socialism with Chinese Characteristics for a New Era and reflected on the glory and dreams of generations of SWUFE, as well as the responsibilities and commitments of SWUFE in the new era.

During his opening remarks, Zhao Dewu pointed out that the graduating class of 2023 had personally witnessed the grand celebrations of the 70th anniversary of the founding of the People's Republic of China and the 100th anniversary of the Communist Party of China. They had witnessed the realization of the millennium-long dream of poverty alleviation, the comprehensive establishment of a well-off society, and the comprehensive launch of a new journey of Chinese-style modernization. During graduates' time at SWUFE, they have left behind the most beautiful youth and created precious memories and wealth. He warmly encouraged the graduates to hold high the banner of faith, firmly set their youth's course on firm ideals and beliefs, firmly adhere to Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, and unwaveringly follow the Party. He called upon them to be resolute supporters and to become new people of the era who shoulder the mission of national rejuvenation. He urged them to set sail on the journey of struggle, highlighting their youthful spirit, and to be mindful of the overall situation and the larger interests of the country. They should take solid steps and move forward courageously, actively engaging in practice, reaching out to the people, going to the

grassroots level, and going forward with a pioneering spirit.

Zhuo Zhi delivered a farewell message to the graduating class of 2023, titled "A Strong Nation Needs Me, Ambitious Youth." He first extended warm congratulations to the students who had successfully completed their studies and expressed sincere gratitude to the teachers and family members who had cared for and supported their growth. Zhuo Zhi led everyone to reflect affectionately on the glorious "national rejuvenation" that shines in the long river of history and to gaze into the unfolding "nation-building" panorama of the era, firmly establishing the unique coordinates drawn by the best era for the "generation of a strong nation." Zhuo Zhi deeply encouraged the graduates to answer the questions of the era and the youth, "What does it mean for SWUFE's youth to contribute to the construction of a strong nation?" He urged them to have great aspirations, to embrace the world with a sense of responsibility, and to always integrate their individual pursuits into the grand cause of the Chinese nation's great rejuvenation. With lofty ideals, humility, and concern for the people, they should merge their personal ambitions into the surging tide of the nation's rejuvenation, aiming high, exploring new paths, and caring for the well-being of the people, thereby inspiring the surging tide of the nation's rejuvenation with great love and dedication. They should dare to imagine and dare to act, cultivating the courage and determination to nurture the future from

the unknown. They should maintain the courage to uphold tradition and innovate, explore the unknown, and advance bravely, constantly expanding the boundaries of their knowledge and the frontiers of their careers, striving to be pioneers and challengers in their endeavors. They should think and act wisely, forging visionary insight from their modest perspectives, adhering to lifelong learning based on deep thinking, understanding the laws, and increasing their wisdom. They should find joy in their work and endeavors, nurturing a lofty state where "striving" leads to "happiness." They should always maintain an upward and virtuous attitude, work diligently, live joyfully, actively explore, and accumulate small steps towards great achievements. In the new journey of progress, they should write their own brilliant chapters. Zhuo Zhi wished the graduating class of 2023 to write the most splendid and regret-free answers, leaving their marks in the mountains, rivers, lakes, and seas of the motherland, writing into their own "poetry and distant horizons," and spreading the good news that "a strong nation needs me, and ambitious youth prevail!"

Li Yongqiang, Vice Chairman of the SWUFE's Degree Assessment Committee, read out the degree awarding decision, while Ma Xiao announced the commendation decision for the outstanding graduates of the Class of 2023, the Guanghua Award for Outstanding Master's Degree Theses in 2023, as well as the recognition decision for graduates who excelled in

grassroots employment and entrepreneurship in 2023. SWUFE's leaders presented degree certificates, graduation certificates, and double degree certificates to the representatives of the graduating class and awarded certificates and prizes to the winning graduate representatives.

Graduate representative Yang Anqi delivered a speech, reminiscing about unforgettable memories at SWUFE with the faculty and students. Expressing gratitude for the nurturing of the alma mater, the companionship of parents, and the guidance of teachers, Yang Anqi stated their determination to forge ahead with new hope, overcome challenges, and make strides in the waves, allowing their youth to shine in resonance with China's modernization.

Following that, the graduate representatives took the stage and presented flowers to the school leaders, teachers, counselors, and administrative staff representatives, expressing sincere gratitude to the alma mater.

The entire graduating class raised their right fists and made a solemn oath: to never forget their original aspirations, uphold the truth, fear no challenges, shoulder heavy responsibilities, prioritize the national interest, let their youth flourish where the country and the people need

it most, and contribute to the great rejuvenation of the Chinese nation and the common progress of human civilization.

During the ceremony, a series of videos specially prepared for the graduates were played. Through the frames of "Years at SWUFE," the smiles on their faces, the advice they received, and the promises they made, all students and faculty relived the wonderful time of hard work and struggle on the SWUFE campus. In the video "Moving Forward with Dreams," they received blessings and expectations from teachers, classmates, and parents, as well as sentiments of reluctance and concern, expressing deep gratitude to their alma mater.

After the ceremony, SWUFE's leaders individually awarded degrees to the 6,466 graduates and took a group photo. The Class of 2023 of Southwestern University of Finance and Economics embarked on a new journey of "nation-building and national rejuvenation," standing in the relay race filled with glory and dreams. 留学生们第一站来到了石钟镇前锋村，在湖

边的“前锋集市”听取了村干部讲述前锋村从落后的省定贫困村到市级乡村振兴示范村的发展历程，以及对于村民返贫监测和帮扶情况的治理。村干部带领留学生们沿湖走访了新农村建设的民俗建筑，以及集“吃、住、行、游、娱、购”于一体的现代都市乡村消费场景“原香小院”，让留学生们切实感受到了中国农村翻天覆地的变化。

在青年志愿者的引导下，留学生们来到了第二站平武镇尤安村。村干部带领参观了尤安村新村民聚集点，以及村集体民宿酒店。在老照片简陋房屋和实体靓丽新屋的强烈对比下，留学生们感受到了尤安村村民的新生活、新风貌和新气象。走进尤安村简阳农民画艺术馆，一幅幅充满中国特色和乡村气息的农民画，让留学生们眼前一亮。很多留学生难以想象农村、农民和艺术的结合能呈现出如此绚丽多彩的画面，完全打破了他们对于传统农村的刻板印象。经介绍，尤安村还经常举办艺术活动，组织专业老师免费教授周边村民和儿童绘画，以及编制手工制品，这些已是尤安村村民日常生活的常态，留学生们对此更是交相称赞。在紧邻农民画艺术馆的蜀绣馆里，留学生们被蜀绣的高超技艺深深折服，忍不住上手体验一针一线勾勒出的岁月静好。在随后召开的乡村振兴座谈会上，留学生们观看了简阳市城市宣传片，了解了简阳发展现状，聆听了平武镇党委书记讲述的尤安村脱贫攻坚和乡村振兴路上的精彩故事，并主动分享了他们的感受和体会。座谈会中，留学生们还积极参与关于简阳市乡村振兴的知识问答，氛围十分热烈。

下午，留学生们来到最后一站禾丰镇连山村。留学生们参观了连山村“巧手工坊”妇女居家灵活就业示范基地和“巧手易购”。青年志愿者介绍了连山村是如何通过基地的示范带动，辐射周边多个镇（街道），鼓励更多农村在家妇女

实现居家灵活就业的发展脉络。此外，为了让留学生更加直观体验农村劳作，本次活动为留学生们设计了农业实践课堂，让留学生们亲自下地进行玉米栽种和桃子采摘，亲身感受田间辛劳与乐趣。

此次实践活动让留学生们走进中国农村，全方位深入其中，全身心体验和感受了中国新农村的新产业和新业态，让他们不禁感叹乡村振兴给村民带来的安居乐业和幸福田园，纷纷表示向往之至。通过本次活动的成功举办，焕新了中国乡村在留学生们心中的新形象，让他们看见和触摸到真实、立体的富裕新农村，推动他们面向世界讲述自己眼中的中国。

On May 19th, the "Experience China - Exploring the Path of Rural Revitalization in the West" social practice activity, sponsored by the China Scholarship Council and co-hosted by Southwestern University of Finance and Economics and the Communist Youth League Committee of Jianyang City, was successfully held. Nearly a hundred international students from 32 countries studying at Southwestern University of Finance and Economics, Sichuan University, University of Electronic Science and Technology of China, Southwest Jiaotong University, and Chengdu University of Traditional Chinese Medicine participated. The activity focused on the theme of "Exploring the Path of Rural Revitalization in the West" and organized international students to visit Jianyang, perceive the development process and current situation of rural revitalization, and experience the revitalization path taken by western Chinese rural areas under the guidance

of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era.

The first stop for the students was Qianfeng Village in Shizhong Town, where they listened to the story of Qianfeng Village's development from a backward provincially designated impoverished village to a city-level demonstration village for rural revitalization at the "Qianfeng Market" by the lake. Village officials led the students to visit the folk architecture of the new rural construction and the modern urban-rural consumption scene "Original Fragrance Courtyard," which integrates "eating, living, transportation, tourism, entertainment, and shopping," allowing the students to truly experience the tremendous changes in Chinese rural areas.

Guided by young volunteers, the students arrived at the second stop, You'an Village in Pingwu Town. Village officials led them to visit the new settlement for new villagers in You'an Village, as well as the village collective homestay hotel. Through the strong contrast between old photos and simple houses and the stunning new houses, the students felt the new life, new appearance, and new atmosphere of You'an Village. In the You'an Village Jianyang Folk Painting Art Museum, the students were amazed by the folk paintings full of Chinese characteristics and rural charm. Many students couldn't imagine such a colorful picture created by the combination of rural life, farmers, and art, completely breaking their stereotypes of traditional rural areas. It was introduced that You'an Village regularly holds art activities, organizes

professional teachers to teach surrounding villagers and children painting for free, and crafts handmade products, which have become part of the daily life of You'an Village residents. The students highly praised these efforts. In the nearby Sichuan Embroidery Museum, the students were deeply impressed by the superb craftsmanship of Sichuan embroidery and couldn't help but try their hand at the exquisite stitches that depicted a peaceful and beautiful time. In the subsequent symposium on rural revitalization, the students watched a promotional film about Jianyang City, learned about the current development of Jianyang, listened to the exciting stories of poverty alleviation and rural revitalization in You'an Village told by the Party Secretary of Pingwu Town, and actively shared their feelings and experiences. During the symposium, the students also actively participated in a knowledge quiz about rural revitalization in Jianyang City, creating a lively atmosphere.

In the afternoon, the students arrived at their final stop, Lianshan Village in Hefeng Town. They visited the "Skillful Workshop," a demonstration base for flexible employment for women at home, and the "Skillful Easy Shop" in Lianshan Village. Young volunteers introduced how Lianshan Village promotes the development of flexible employment for rural women through the demonstration base, radiating to multiple towns and encouraging more rural women to achieve.

This practical activity allowed the students

to visit the Chinese countryside, go into it in an all-round way, experience and feel the new industries and new forms of business in the new rural areas of China, so that they can see the rural revitalization has brought the villagers a happy life and a happy garden, and expressed their yearning for it. Through the successful

holding of this activity, the new image of rural China in the minds of international students has been revitalized, leading them to see and touch the real and three-dimensional rich new rural areas, and encouraging them to tell the world about China in their eyes.

During the symposium, Xiao Feige first expressed gratitude for the visit. She mentioned that the art museum, as a platform for artistic education and cultural exchange, provides a window for international students to understand Chengdu and China. Additionally, the inclusion of international students has enriched the diversity of the museum's volunteer team, offering more

diverse services to visitors.

Subsequently, Wang Xin briefly introduced the development history of the college. He emphasized that the collaborative establishment of this base between the university and the local cultural institution is the first "International Education Practice Base for Foreign Students" formed through a signed agreement. This cooperation aims to build the "Studying at SWUFE" brand and explore beneficial diversification in university-local community cooperation. It is hoped that through the diverse platform of the art museum, excellent traditional Chinese culture and contemporary culture can be conveyed to a large number of international students in China. Furthermore, it encourages international students to serve society as volunteers, facilitating dialogue and communication between foreign students and the external world, and empowering them to understand the real, multi-dimensional, and comprehensive China.

During the meeting, both parties also discussed future cooperation plans, resource integration, practical approaches, and other topics. They expressed their commitment to leverage the advantages of both the university and the local commu-

SWUFE Alumni

JOHN PETER CESAR-Phd Graduate from School of Accounting, Class of 2013
2013级会计学院博士毕业生裴君昊

Who am I?

John Peter Cesar, became the first Haitian student in China to be appointed by his office in Beijing as a Commercial Counsellor after graduating.

I am very delighted to be able to use the "SWUFE International Alumni newsletter" created by our alma-mater exclusively to share inspirational stories and any subject having academic and scientific implications.

A life story is always worth to tell since it may inspire others in bringing critical changes to their own lives on the path of greatness and perhaps contributing to influence them positively to some extent.

Allow me to seize this opportunity to extend my gratitude and thankfulness to the Chinese government for implementing such comprehensive scholarship program hosted by the Chinese Scholarship

Council (CSC) channel to promote high quality education in developing countries.

Because of this program I was able to pursue higher degree in the field of Education and at the same time discovering the amazing and extraordinary Chinese culture. I want to thank publicly the several talented and humble Haitian and Chinese professors who helped me shape my future by providing advanced knowledge resources in order to satisfy the current labor market needs.

MY CHILDHOOD & EDUCATION

I was born and raised in Haiti, La Gonave and I am the second of two children in my family. Staying in my hometown until the age of seventeen, I moved to the Capital city, Port-Au-Prince, in the pursuit of a better education. I attended the “Institut Georges Marc” to complete my high school. I was raised by a Christian mother, Astride Lambré and by my Catholic grandpa, Herissé Lambré. My biological father left Haiti for New York while I was not even born yet. I grew up in a very loving, respectful, warm and positive environment where education has been considered as the main factor to bet on to experience success. After graduation from high school, I attended “Ecole Supérieure d’Infotronique d’Haiti (ESIH)”, where I received a Bachelor’s degree in Business Administration. Influenced by my

family to take my studies more seriously, I experienced great intellectual growth during college and for several years thereafter. Since then, I dedicated my time to read works of literature and philosophy by Jacques Stephen Alexis, Rene Depestre, Jacques Roumain and Louis-Joseph Janvier. In 2005, I served as a junior diplomat at the Haiti Ministry of Foreign Affairs. After working for a couple of years as Attaché, I earned a scholarship to the most prominent finance & economics school in Sichuan, Southwestern University of Finance and Economics, and obtained a Master’s degree in Finance from the School of Economics. Inspired and particularly attracted by the school environment, the beautiful scenery in Sichuan, I have been enrolled a second time by SWUFE, but this time as a Ph.D candidate and majored in Financial Management & Accounting. I successfully graduated with honors after six long years of hard work. My main research focus is Government Audit_Financial Management, but I also developed an interest in anti-trust, Mergers & Acquisitions.

During my studies in Sichuan, Chengdu, I joined the famous Center for China’s Governmental Auditing Research (CCGAR) under the leadership of my thesis supervisor and Mentor, Professor Cai Chun. In July 2010, I worked as a Sales Manager (intern) in Lifang International CG (Chengdu Branch Office). In April 2017, I also

became a Sales Consultant in Liquid Image (Sichuan, China). After spending one year in the company, I returned to Haiti where I was appointed as a Commercial Counsellor in the Haiti Commercial Development Office to the People’s Republic of China. I published many articles in Haiti’s top newspapers and collaborated with other experts on subjects related to my research focus. I was awarded by the Inter-

national School of SWUFE for great academic achievements four times.

June 2009 “A study on the influence of the transfer of China’s manufacturing industry on Haiti’s economic development”

June 2019 “A study on the paths of safeguarding public financial security in Haiti — based on the experiences of China’s government audit.”
